

## WORK REPORT FOR 2024

To,

Uncle Alex

Germany,

### **Greetings in the sweetest name of our Lord and Savior Jesus Christ!**

First of all, I personally consider myself blessed and privileged to write this report to uncle Alex. Secondly, on behalf of **Bethel Family** we would really like to express our heartfelt gratitude to uncle and his family for such love and continued support. Words are so limited to express how thankful we are and we can only say its so amazing to belong to the family of God.

On New Year January 1<sup>st</sup> 2024 we had worship night, thanking God for the past, praying for various matters and made new commitment to God. We also had chain of prayer on January 6<sup>th</sup> together with children from 6:00pm to 6:00am that the reading of the Scriptures and praying continues as it says in **Leviticus 6 :13** "The fire must kept burning on the altar continuously; it must not go out." Right from the beginning of the year we experienced being more blessed than the previous years so we renewed our car license on time. The Lord really blessed Bethel Family so much through uncle Alex that from March onwards we have birthday cake for every individual which makes our children exciting and feel loved.

Uncle Alex has been so kind enough and faithful in sending us support for everything we need. We also admitted our 30 children to the same private school for the second year. Before the school reopen, we bought everything our children will need for school like new bags, new umbrellas, compass box with the tools. This also made our children excited for

school, they said, "Eager to show new things to friends." I remember 4 years ago, they would go to school with used bags which my wife asked to parents of known friends.

August 07 was my birthday and during dinner one of our daughters asked me, "Papa, Why no birthday cake today," because we have birthday cake for everyone. I replied, "I had birthday cake on my 40<sup>th</sup> birthday and I am well happy enough. I don't need anything else, I only want to see you all doing good, growing in the fear of the Lord."

The expression of her face was changed and all of them were calm as they listened to me. I added, "God has given me 32 children" pointing out to them, "He has also given sponsor to support us, we have home now, car, we are attending private school which I have never dreamed off, we have enough food to eat, dresses to wear, all I want is to see you all live a new life in Christ and have a better future, that's it." I was saying this with a low voice. "Now coming back to your question, thank God we can have birthday cake for you, I am just more happy to see you all around, getting better education, growing everyday in the knowledge of the Lord." Then they all sang a happy birthday song for me.

From this 2024 people nearby us know that we are sending our children to private school and with surprise asked me, "How do you feed these much orphans and sending them to private school to pay fees?" I answered, "It's not me who is feeding and paying fees for the school, the God we serve is a living God and He does miracles for His children through the people who loves that living God."

Our children are really growing physically and spiritually, they learn to have faith and know that God really answers our prayers, they love God. Almost all the bigger ones got an assurance of salvation. So as a result most of them have a total lifestyle changed, it is not easy to shape and mold such children from various backgrounds, but gives great joy to see them having a new life, loving the Lord, praising God and begin to pray for others.

The bigger girls are able to help washing dishes, sweeping the rooms and helping in taking care of the little ones.

1. Uncle Alex and his family has been helping us since 2020 when we started building our house and has paid for the maximum amount. Since then he has been so kind and faithful in sending us supports again and again as he is no longer able to send big amount at once due to the political issue in Myanmar. He is so thoughtful of us to make sure that we have enough fund.
2. Uncle has paid for a brand new car which we are using everyday for picking and dropping our children for school and for marketing as well. In this past three years we had no any issues regarding our car so our children are on time to school and back home on time.
3. From January 2024 to December 04, 2024 he has invested Euro 14,000 exclusive of sending charges
4. From March 2023 to December 2023 he has invested Euro 12,000 exclusive of sending charges.
5. In 2022 he sent Euro 5,000 exclusive of sending charges and prior to that he has sent big amount several times for new car and for the construction of our house.

**Every investment must return with interest.** Your investment has made big changed in the lives of many orphans, homeless orphans now own home, those who lived in jungle like an animal with no school are now attending private school. Those who begged house to house and downtrodden are now having enough food with prestige, those who once despised and disliked are now cared and feel loved. Those who never had birthday cake nor seen in life are now getting on every birthday. Those who once had no one to take are now being taking cared for health, education, dresses, etc. Those who once raised in Buddhist monk schools are now in a Christ centered home being nurtured with the Word of God day and night. Those who are once called bastard are now real children, and child

of the most high God. Those once who were called all trouble caused are now accepted and forgiven.

*The King will reply, "Truly I tell you, whatever you did for one of the least of these brothers and sisters of mine, you did for me" **Matthew 25:40.***

Truly yours in His joyful services

On behalf of Bethel Home
